

Please help us find our 2 Missing cats...

Lottie—Female—White/Gray with bright blue eyes, approx. 6 lbs, 5 years old
Missing since approximately Tuesday, 1-20-09. She was a rescued feral cat and is very afraid of people and will run when approached, but her boyfriend Beau is missing her terribly.

Both cats went missing from our fenced backyard at 2133 Bush Drive, Los Osos. These cats have lived outside most of their lives and it is very strange that they should both disappear within days of each other. We would appreciate any information you might have about either of them.

Please help us find them and bring them home!

Max—Male—White/Brown with pale blue eyes, approx 10 lbs, very large and fluffy, 11 years old

Missing since Friday, 1-24-09. He is also scared of people he does not know and will run if approached.
